

静音防尘 TG系列 TG Series Low-Noise Dust-Proof Granulator

静音防尘
TG系列
TG Series Low-Noise
Dust-Proof
Granulator

风斗采用双层结构，减少噪音，使得设备具有良好的防尘性能，省电耐用。密封性好，维护方便，使用寿命长。噪音低，提供良好工作环境。另外提供多种机型供客户选择。

Double sound insulation for low noise level; optimal structure for dust-proof operation; reliable design for long maintenance-free life; hermetic seal-proof design provides excellent working environment. It in noise level is low 85dB under the condition when noise measures one meter away. In each production, power granulators are available for customers' selection.

Features

- Double sound insulation design, noise level is below 85dB, low noise level, low dust, also avoid dust contamination.
- The material suction speed is adjustable, easy to clean.
- Motor and suction speed are adjustable for optional.
- Motor and protection device, ensure safety.
- To be equipped with electrical phase controller, avoid motor reverse.
- To install over the door, easy maintenance.
- This machine can be side-the - pressed and collected together.
- Unique design with inside dust dispersion system, expel heat generated from electrical cabinet, prolong service life even under the fully operation.
- The machine can be equipped with hand switch for design.

Feature and scope of the product does not guarantee the product attributes,only for reference.Our scope of delivery and services provided are based solely on the terms of delivery and services provided are based solely on the terms of the contract.Technical data and illustration are only for reference .We reserve the rights of changing.
